

SRIJAN MISHRA

srijanmishra456@gmail.com, +91-9582310208

ACADEMIC DETAILS

Year	Degree/Exam	Institute	GPA/Marks
2014	B.Tech in Mechanical Engineering	Indian Institute of Technology, Delhi	7.254
2010	CBSE, XII	Rajeev Gandhi Higher Secondary School, Bhopal	88.2
2008	CBSE, X	St. Joseph's Co-Ed School, Bhopal	91.6

SCHOLASTIC ACHIEVEMENTS

- Secured **AIR 267(99.95 percentile)** out of **0.5 million** candidates appearing IIT-JEE (2010)
- Awarded **MHRD scholarship** for securing **AIR 284** out of 1 million candidates appearing in AIEEE (2010)
- Cleared CFA Level-1 examination conducted by CFA Institute, USA and FRM Part-1 conducted by GARP, USA

TECHNICAL SKILLS

- Languages: Python, C, MATLAB, Java, SQL and VBA
- Python Libraries: OpenCV, Keras, Theano, Tensorflow, Caffe and Numpy

RELEVANT PROJECTS

- Mobility Assistant for Visually Impaired:**
 - Worked on shadow removal from images using OpenCV in Python.
 - Successfully generated shadow free images through illuminant invariant images derived from original images
- Leafsnap database implementation:**
 - Implemented & fine-tuned a VGG-16 neural net on database to achieve near perfect accuracies using keras
 - Did another research using VGG-16 weights trained on ImageNet data as a fixed feature extractor
- Appropriate candidate predictor for database calling:**
 - Developed & implemented a predictive algorithm to increase relevance of candidates selected for calling
 - Predictor increased interview turn-up rates of candidates by 30% contributing to a significant increase in revenue

JOB EXPERIENCE

- Software Engineer, Baxi-The Bike Taxi, Gurgaon** (Jan, 2015 – Present):
 - Working as a python back-end engineer to develop APIs for country's leading two wheeler taxi aggregator
- Co-founder, Percipient Complex Dynamics, Gurgaon** (Jun, 2015 – Dec-2015):
 - Worked on an indoor positioning systems based hyper-local deals platform for a leading mall chain
- Team Leader, Bank of America, Quantitative Office, Gurgaon** (July, 2014 – May-2015):
 - Worked with the Credit and Funding Valuation team of Bank of America's Quantitative Office
 - Engineered risk analysis tools on Python by identifying driving parameters and studying underlying statistics
 - Closely worked with Front Office- CVA & FVA Trading Desk in reporting Risk and PnL for 17,000 portfolios

INTERSHIPS

- Schlumberger Asia Services Limited, Nazira, Assam- Wireline Segment** (June, 2013 - July, 2013):
 - Analyzed pre & post job processes to design process flow to minimize time & prevent crisscross flow
 - Coordinated with ONGC to collect job work-orders & dispatch paperwork meeting client expectations
- Michigan Technological University, USA** (May, 2012 – July, 2012):
 - Synthesized different length & diameter nanotubes by varying different parameters in combinations
 - Examined bone crack healing capacity of nanotubes by conducting experiment on a living animal

EXTRA-CURRICULAR ACTIVITIES

- Photography and film making:**
 - Won prizes in cultural fests of 11 colleges; won various prizes at institute level as well
- Sports:**
 - 2nd Position, State Aquatic Championship ('08) & 1st Position, District Swimming Championship ('07)

HOBBIES

- Travelling, Chess and Running
